CHARACTERISTICS OF THE INDUSTRIAL DOCTORATE PROJECTS

The **essential element** of the Industrial Doctorates Plan is **the industrial doctorate project**, that is, a strategic research project carried out at a company that allows the doctoral student to further develop their research training in collaboration with a university, and which is the object of a doctoral thesis.

The **Government of Catalonia** provides **two types of financial support** to these projects, based on certain characteristics of project implementation:

- Industrial doctorate projects **co-funded by the Government of Catalonia**.
- Industrial doctorate projects with **specific funding**.

CHARACTERISTICS COMMON TO BOTH TYPES

- The doctoral thesis will be carried out within the framework of a **collaboration agreement** between the university (and, if necessary, a research centre) and the company (more than one company may participate).
- The candidate will be given a **thesis supervisor** connected to the university or research centre and a **project manager appointed by the company**.
- The candidate will be selected jointly by the signatories of the collaboration agreement. However, the candidate must be accepted and admitted to the doctoral programme of the corresponding university.
- The candidate must have an **average mark of 6.5 or higher (scale of 1 to 10)** on his or their academic transcript, calculated based on all credits of university studies that allow admission to a doctoral programme.
- The thesis supervisor must be part of an active **recognised research group (SGR)** of the Government of Catalonia or a **researcher from the ICREA** programme or be a recipient of **European Research Council (ERC) funding**.
- The **time** dedicated by the doctoral student to the research projects will be divided between the company and the university.
- The candidate will take part in **training programmes in specific skills** related to RDI project leadership, coordination and management; the transfer of research results; new business development; and industrial and intellectual property, among other relevant subjects.
- The candidate will be given a yearly stipend (**mobility fund**), funded by the Government of Catalonia and accumulative for a maximum period of 3 years. Its purpose is to enable attendance at workshops and conferences related to the research project as well as stays at other company offices, universities or research centres outside Catalonia.
- All theses defended under the Industrial Doctorates Plan will receive an **Industrial Doctorate with distinction**. The participating companies and academic directors will also receive acknowledgement for their participation in the Plan.

PERSONAL DATA PROTECTION

By filling in this form, you hereby authorise and give your consent to the processing of your personal data in these terms:

The data subject will only provide personal data of third parties when it is strictly necessary to achieve the required purpose. If personal data of third parties is provided, the data subject guarantees that they have informed them of the processing of their data in the terms described. **I Data controller:** AGAUR – CIF: 0080117C – Passeig Lluís Companys, 23, 08010, Barcelona – Tel. 93 310 63 94 – lop.agaur@gencat.cat **I Data protection officer:** agaur@dpo.microlabhard.es **I Purpose:** the purpose of collecting the data is to publicise the organisation's and the university or research body's request to participate in an industrial doctorate project, within the framework of the Industrial Doctorates Plan on the website of the Industrial Doctorates Program (<https://doctoratsindustrials.gencat.cat/en>), in order to send the applications of those interested in the project proposal, in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council on the protection of personal data and with Organic Law 3/2018, of 5 December, on the Protection of Personal Data and guarantee of digital rights. **I Legal Basis:** the performance of a task carried out in the public interest, the exercise of official authority vested in the controller or the fulfilment of a legal obligation, or the consent of the data subject on request, with the possibility of withdrawing such consent at any time. **I Data retention:** your data will be kept as long as it is needed to deal with the related call for applications, and, once this is closed, it will be retained in accordance with the time frames set out in the applicable file regulations. The data controller certifies that they have implemented the technical and organisational measures set out in Regulation (EU) 2016/679, in order to guarantee the security and integrity of the personal data included in the files and avoid their alteration, loss or unauthorised access or treatment. **I Rights:** at any time, you may exercise your rights of access, rectification, erasure, opposition, restriction of processing of your data, or the right to data portability. This must be done in writing, accompanied by a copy of the official document that identifies you, addressed to AGAUR or the Data Protection Officer. For any complaint about the processing, you also have the right to lodge a complaint with the Catalan Data Protection Authority. **I Recipients:** company and university/research body developing the research project in order to assess the applications, Ministry of Research and Universities (REU) and Catalan University Service Consortium (CSUC), so they can be involved in and advise on the selection of the organisations and candidates and coordinate and promote the programme together with AGAUR. Moreover, the data may be communicated to the company where they carry out their activities and to the university in order to select the candidate.
